DETAILED ACTION

Response to Amendment

1. This Office action is responsive to the amendment dated November 1, 2004. Claims 1 and 11-17 are cancelled. Claims 2-10 and 18-48 are pending.
2. The rejection of claims 2, 19, and 20-24 are rejected under 35 USC 102(a) as being anticipated by Wang et al., Chemical Materials, (2003), Vol. 15, pages 1913-1917, is withdrawn due to applicant's persuasive arguments.
3. The rejection of claims 2 and 18-24 under 35 USC 103(a) as being unpatentable over Onikubo et al. (JP 10-251633) is withdrawn due to applicant's persuasive arguments.
4. The double patenting rejection set forth in the last Office action (mailed September 29, 2004), paragraph 13, is withdrawn due to the terminal disclaimer filed on November 1, 2004.

Terminal Disclaimer

5. The terminal disclaimer filed on November 1, 2004 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent Application Number 10/390,973 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
7. Claims 33-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The formula in claim 33 is described as a dihydrophenazine; however, the

Art Unit: 1774

formula appears to represent a phenazine instead. In addition, the dependent claims 34-40 refer to a dihydrophenazine rather than a phenazine. Clarification and/or correction are required.

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 2, 18, and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Eguchi et al. (JP 61-043689). Eguchi et al. discloses a luminescent element comprising a dihydrophenazine derivative (see abstract and the following pages of the translation: page 6, formula at top of page 8, and compound E in Working Example on page 21). The device comprises three luminescent layers and the dihydrophenazine compound may be in any one of the three layers per instant claims 18 and 19 (see abstract).

Allowable Subject Matter

10. Claims 25-32 and 41-48 are allowed. Claims 3-10 and 20-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Reasons for the indication of allowable subject matter were previously given in the previous Office actions.

Response to Arguments

11. Applicant's arguments with respect to claims 2-10 and 18-48 have been considered but are moot in view of the new ground(s) of rejection.
